Es condición obligatoria para la presente cobertura que se deberán cumplir con las siguientes medidas de prevención con el objeto de evitar o minimizar las posibles pérdidas y/o daños a los bienes asegurados; y queda acordado que los bienes asegurados quedarán sin cobertura por parte de esta póliza en el momento en que el Asegurado y/o a quien quiera que éste contrate no cumpla con cualquiera de ellas.

Mandatory security warranties as condition for coverage:

- Use of toll roads when and wherever available, not exceeding the capacity of the means of conveyance and/or maximum dimensions specified for the truck/container (established by the Secretary of Transportation or analog authority), furthermore, the use of metallic closed containers should be mandatory.
- No deviations or unauthorized stops en-route should be made. The only scheduled stops authorized will be those in which the routing requires re-fueling of the truck/trailer and/or physiological needs of the driver, these stops should be made only after 200 Km. have been driven from the origin of the shipment, any other stop for any other reason is strictly prohibited. The mechanical revisions, latching of the cargo inside the container, and initial fueling operations to the truck should be made before any shipment starts. The stops for refueling and for physiological needs of the driver, should be made in secure locations with sufficient illumination and law enforcement surveillance, gas stations or designated truck and trailer parking, Federal Police stations or toll road booths.
- Use or seals, locks or naval locks, to secure trailers and/or containers
- All marine shipments must be stowed below deck, this warranty can be waived when the cargo is shipped in containers.
- All shipments must have GPS tracking with continuous monitoring (reporting the shipment's location, at least, every 15 minutes)

- Para el transporte en buque el Asegurado garantizará la transportación bajo cubierta o sobre cubierta, siempre y cuando los bienes viajen dentro de contenedor metálico cerrado y a bordo de buque portacontenedores.
- Para cualquier transporte terrestre, el asegurado garantizará el uso de caminos de cuota cuando estén disponibles, no sobrepasar el límite de capacidad de carga y/o dimensiones máximas especificadas para el camión y/o el contenedor (establecidas por la S.C.T. y/o autoridad equivalente en el extranjero), además de usar trailers portacontenedores o caja metálica cerrada o vehículos abiertos (plataformas, redillas o similares) cubiertos con lonas en perfecto estado (sin roturas, orificios, rasgaduras o defectos similares) y correctamente fijadas al medio transportador, en caso contrario, las coberturas de mojadura y oxidación (si han sido contratadas) serán nulas e inválidas.
- Rutas programadas con control de tiempos sin permitir paradas por cuestiones personales.
- Deberán usar sellos y/o candados en buen estado de acero o naval locks para contenedores y trailers
- Para todos los embarques cubiertos deberán utilizar vehículos propios y/o de terceros contratados por el Asegurado equipados con sistemas de rastreo satelital (GPS o similar), operativos y funcionales durante todo el trayecto, con seguimiento y monitoreo de posición constante (cada 15 minutos). En caso de desvío, parada o variación en la ruta no programada la empresa encargada de dicho seguimiento y monitoreo deberá de dar aviso inmediato a las autoridades judiciales correspondientes.
